ENERCITY HANNOVER ELECTRICITY NETWORK PROGRAMME

Quick Facts

Countries	Germany
Specific Location	Hannover
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2026-07-07
Borrower	ENERCITY AG
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 399.05 million
Loan Amount (USD)	\$ 399.05 million
Project Cost (USD)	\$ 684.09 million

Project Description

As stated by the EIB, the project concerns a part of the Promoter's multi-annual investment programme in electricity distribution over a five-year period (2025-2029). The programme components for the electricity network include refurbishment and extension of existing low-, medium- and high-voltage infrastructure as well as network digitalisation, to improve the safety, reliability and quality of service, to replace obsolete hardware as well as to enable connections of new system users. Some components of the programme contribute to the capacity enhancement of the transmission system interconnection, required to enable the expected demand growth due to the electrification of mobility and heating within the Promoter's network.

The investments into the electricity distribution network of the Promoter will allow for refurbishment and expansion of the network and its preparation for decentralised feed-in from renewable energy sources and the electrification of the heating and mobility sectors.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

As stated by Bloomberg, Enercity AG provides utility services. The Company offers generation, transmission, and distribution of electricity, as well as supplies natural gas, water, and solar energy. Enercity serves customers in Germany.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:

<http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
