Investment Type(s)	Loan
Investment Amount (USD)	\$ 41.86 million
Loan Amount (USD)	\$ 41.86 million
Project Cost (USD)	\$ 83.73 million

Project Description

According to the EIB, the project will finance AB Klaipedos Energija's multi-year investment plan for the refurbishment and expansion of the district heating network, including heat generation facilities.

The aim is to enable the promoter to connect new users as well as to maintain or improve the reliability and quality standards of the district heating supply.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

As stated on the companys website, AB Klaipedos energija (Energy of Klaipeda) is one of the oldest Lithuanian energy companies, the largest producer and supplier of district heat in Western Lithuania. Its history dates back to the year 1929, when on the riverside of Dane a new coal burning power plant was built. June 17, 1929 is regarded as the establishment date of the present AB Klaipedos energija. This power plant still stands on its hundred year old oak beams and continues operation.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
