Investment Type(s)	Loan
Investment Amount (USD)	\$ 232.22 million
Loan Amount (USD)	\$ 232.22 million
Project Cost (USD)	\$ 339.04 million

Project Description

According to the EIB, the project concerns part of the Promoter's multi-annual investment programme for district heating and electricity distribution over a five-year period.

The electricity network component comprises the refurbishment and extension of existing low-, medium- and high-voltage infrastructure to improve safety, reliability and quality of service, replace obsolete equipment, and facilitate the connection of new users to the network.

The investments in district heating network modernisation and expansion will improve operations, connecting new users, ensuring security, affordability of heat supply and contributing to decarbonisation of the heat sector.

The electricity distribution programme aims to improve safety, reliability, and quality of service, replace obsolete equipment, and facilitate the connection of new users to the network.

The aim of the district heating component is to improve operation, connect new users as well as to ensure security and affordability of the heat supply and contribute to decarbonisation of the heat sector.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
