ETS2 FRONTLOADING FACILITY

Quick Facts

Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	PUBLIC ENTITY(IES)
Sectors	Energy, Finance, Industry and Trade, Infrastructure, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 6,971.10 million
Loan Amount (USD)	\$ 6,971.10 million
Project Cost (USD)	\$ 13,942.20 million

Project Description

According to the EIB, the facility will accelerate clean investments for vulnerable households by pre-financing proceeds from the EU Emissions Trading System 2 (ETS2), which covers emissions from buildings and road transport.

The Lending Envelope under the ETS2 Frontloading Facility is designed to enable EU Member States to access early financing for climate and social investments ahead of the start of ETS2 auction revenues in 2027. Its core objective is to accelerate the deployment of decarbonisation measures in the housing and mobility sectors, particularly benefiting low- and middle-income households as well as Small and Medium-sized enterprises (SMEs).

By bridging the timing gap between policy implementation and funding availability, the Lending Envelope supports key EIB strategic priorities, including climate action, cohesion, and capital markets development. It facilitates scalable investments and ensures repayment through future ETS2 auction proceeds.

The main objective of the Facility is to enhance affordability, accessibility and availability of energy-efficient solutions for housing/buildings and sustainable transport options for low and middle- income households as well as SMEs. Through these investments the Facility will help to reduce energy and transport poverty across Europe while supporting households and users to switch to greener options ensuring an inclusive transition.

Investment Description

- European Investment Bank (EIB)

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
