Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	C
Voting Date	2026-01-13
Borrower	STEDIN HOLDING NV
Sectors	Energy, Finance
Investment Type(s)	Loan
Investment Amount (USD)	\$ 174.79 million
Loan Amount (USD)	\$ 174.79 million
Project Cost (USD)	\$ 349.57 million

Project Description

According to the EIB, the project consists of the purchase by the EIB of Green Bond instruments issued by Stedin under its Green Finance Framework, the proceeds of which will finance EIB eligible projects. The Green Bond purchase will target investments in the promoter's electricity distribution network.

The operation will support new eligible projects in the Netherlands, through investment in the promoter's future green bond issuances. The investments will target electricity distribution, focusing on Medium Voltage (MV) and Low Voltage (LV) networks and automation. They will include customer-driven projects?such as new connections for Renewable Energy Sources (RES), Electric Vehicle (EV) chargers, and residential and commercial customers?capacity-enhancing measures like network expansion, and initiatives to maintain quality of supply through asset replacement and modernisation.

The project helps fill the growing investment gap in European electricity grid infrastructure, which is needed to support the European Energy Transition, as identified, among others, in the EU Clean Industrial Deal, the EU Affordable Energy Action Plan, and the EU Grid Action Plan.

The green hybrid bonds will finance electricity distribution network investments in the Netherlands, thereby contributing to the Netherlands' Long-Term Climate 2050 Strategy set out in the National Energy and Climate Plan (NECP), as well as EU policies on energy and climate, including the REPowerEU action plan, by enhancing critical infrastructure for decarbonisation.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
