ALPERIA HYDROPOWER & NETWORKS GREEN LOAN

ALPERIA HYDROPOWER & NETWORKS GREEN LOAN

Quick Facts

Countries	Italy
Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	Alperia SpA
Sectors	Energy, Hydropower, Infrastructure, Transport
Investment Type(s)	Loan
Investment Amount (USD)	$ 403.18 million
Loan Amount (USD)	$ 403.18 million
Project Cost (USD)	$ 543.42 million

Project Description

As stated by the EIB, the project will support the promoter's investments across several sectors between 2025 and 2030. These include e-mobility infrastructure, the modernisation of several existing hydropower plants, as well as the refurbishment, upgrading, and expansion of its electricity distribution network and district heating assets in Italy.

The modernisation of the hydropower plants - several of which have been in operation for more than half a century - aims to ensure long-term reliability and extend their lifetime.
For the electricity distribution network, the project focuses on increasing network capacity to support the energy transition in the province, particularly in light of rising decentralised generation and demand (e-mobility, heat pumps, and industry).
In district heating, the project targets the installation of new biomass boilers, as well as the modernisation and extension of existing assets. For e-mobility infrastructure, the investments focus on increasing the number of charging stations.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

As stated by Bloomberg, Alperia SpA provides renewable energy services. The Company produces energy from renewable sources, run power grids, and are engaged in the sale of energy and district heating systems. Alperia serves customers in Italy.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
