ITALGAS ENERGY EFFICIENCY

Quick Facts

Countries	Italy
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2026-06-16
Borrower	Italgas S.p.A.
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 290.24 million
Loan Amount (USD)	\$ 290.24 million
Project Cost (USD)	\$ 388.92 million

Project Description

As stated by the EIB, the loan will finance the implementation of small- to medium-scale energy-efficiency schemes across Italy in both the public and private sectors over the period 2026-2029. The investments will be carried out primarily by an Energy Service Company (ESCO) controlled by the promoter.

The project comprises a broad range of energy-efficiency investments, including the renovation of public and private buildings, thermal insulation and improvements to building envelopes, the replacement or upgrading of heating, ventilation and air-conditioning (HVAC) systems, energy-efficiency measures in industry, the modernisation of public-lighting infrastructure, and the installation of photovoltaic systems for self-consumption.

The investments will be implemented in residential buildings, the industrial sector, public administration, and public lighting. The aim is to increase energy performance, reduce greenhouse-gas emissions, and support Italy's wider decarbonisation and energy-transition objective.

The operation is the second efficiency framework loan with the Promoter, allowing to bundle a large number of small energy efficiency ("EE") investments and overcome the typical fragmentation of these types of projects.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

As stated by Bloomberg, Italgas S.p.A. provides gas distribution services. The Company offers delivery points management, pressure reduction plants, withdrawal cabins, fault reporting, and laboratory testing services. Italgas conducts its business in Italy.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
