<b>Sectors</b>	Communications, Energy, Finance, Water and Sanitation
<b>Investment Type(s)</b>	Guarantee
<b>Investment Amount (USD)</b>	\$ 234.88 million
<b>Project Cost (USD)</b>	\$ 587.20 million

---

## Project Description

According to the EIB, the project consists of a line-by-line guarantee agreement with IKB Deutsche Industriebank AG for up to 50% of their risk exposure. Sub-loans will finance electricity and energy infrastructure (district heating and electrical grid expansion) or public water and telecommunication infrastructure.

The operation falls under the Growth for Energy (G4E) initiative, designed to support small scale energy and related infrastructure investments at municipal level. Eligible sectors include, for example, electrical grid expansion, district heating, water infrastructure and telecommunications. Additional investment schemes may be deemed eligible and will be checked during appraisal.

The operation supports IKB in expanding its lending activity to utility companies, such as the German and Austrian "Stadtwerke" which are facing significant investment challenges for the modernisation and the decarbonisation of the existing energy supply infrastructure. The risk-sharing instrument enables IKB to access capital relief and loss protection for newly originated eligible transactions and it alleviates limit restrictions on individual obligors/sectors, while offering affordable financing to eligible final beneficiaries, helping them invest in infrastructure upgrades, required for the green transition.

The project will complement to IKB LRS ENHANCED SUPPORT operation for mid-caps. While the G4M allows funding to mid-caps only, the proposed operation focuses on the market gap in the energy and municipal infrastructure.

---

## Investment Description

- European Investment Bank (EIB)

## Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [IKB DEUTSCHE INDUSTRIEBANK AG](#) (Financial Intermediary)

---

### Private Actors Description

As stated by Bloomberg, IKB Deutsche Industriebank Aktiengesellschaft provides deposits and commercial banking services. The Bank offers corporate, real estate, and lease financing, venture capital, funding for public sector infrastructure projects, and export financing. IKB Deutsche Industriebank serves customers in Germany.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
