## Project Description

According to FMO website, the proposed Capacity Development (CD) project is a continuation of the current framework agreement between the FS and FMO. The objective is to assist FI clients (initially in Africa, now globally) with risk management issues and business development. Through this project selected clients will gain access to a leading consultancy in the field and be introduced to international best practices. This will improve the beneficiary clients' risk management, operational capacity, and outreach. A framework agreement is proposed because a) clients get a ready-made, yet tailored consultancy solution; b) it allows for a more efficient decision making process internally; and c) it increases the focus and awareness of risk management and the potential for CD.

## ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW) . A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
