Project Description

This project will finance the first phase to 15 of existing private equity and debt portfolio clients for the Family Business Map. During the family business governance workshop in Hong Kong in April 2015, the main presenter, Morten Bennedsen, a professor at INSEAD, introduced a tool called the Family Business Map. This is an analytical tool that helps family business in their long-term planning, in particular on decisions of professionalizing the firm and diluting ownership. The project facilitates use of the tool to benefit FMO's own clients.
