## Project Description

Together with GIZ and Deutsche Bank, FMO will organize an ALM capacity building program for multiple banks in Myanmar. The beneficiaries of the Asset Liability Management (ALM) capacity building program are multiple banks in Myanmar.

Technical understanding of ALM best practices is lacking in the local financial sector of Myanmar. In addition, this project is highly relevant given the alignment with FMO's aim to build a solid reputation in Myanmar as a DFI and create a network of new clients and partners.

## Contact Information

### ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW) . A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
