Project Description

According to FMO website, the Indonesian economy exhibits indicators of robustness, favorable demographics and high growth potential. It is the world's 4th most populous country (250mln citizens), the biggest in South-East Asia, with a median age of 29 years. The country furthermore displays healthy domestic consumption trends which fit well with the Falcon House Partners Fund II (FHP II) investment strategy. FHP II targets sectors that are integral to domestic consumption, due to the high y-o-y growth in consumption in Indonesia.

Through investing in FHP II, FMO provides growth capital to companies in Indonesia that serve the emerging middle class and which at the same time have limited access to capital. By providing scarce capital, we contribute to economic growth that will eventually lead to more jobs and tax revenues in Indonesia.

ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW) . A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
