## Project Description

According to FMO website, FMO provides ACBA with a USD 15 million multi-currency facility that ACBA can choose to drawdown in either US Dollar or Armenian Dram. The facility will improve access to finance for Armenian MSMEs and farmers that remain underserved. It will thereby contribute to development of the real sector in the country, which continues to be one of the poorest in the region. With its clear focus on MSMEs and farmers and its wide regional outreach, ACBA is well positioned to finance these underserved segments of the Armenian economy. In rural areas where many other banks are not present, ACBA is often the first financial institution working with the local entrepreneurs and individuals. Strict on-lending criteria will ensure that FMO's funds will be channeled exclusively to MSMEs and farmers.
