Project Description

According to the bank's website, "P&R Holding produces advanced technology substrates and rooting systems and has pioneered using coco peat for substrates." The objective of the project is "P&R Holing is not satisfied with the present state of the (waste) water management that leaves room for improvement. Internationally known practices for managing (waste) water need to be evaluated to select appropriate strategy and technology to improve corporate performance by using water in a more sustainable way."

Investment Description

• Netherlands Development Finance Company (FMO)

ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: https://www.fmo.nl/independent-complaints-mechanism
