## Project Description

According to the FMO, the facility is dedicated to support BMCE's initiatives towards improvement of solid waste management practices and standards, one of the major environmental challenges in Morocco. Management of municipal solid waste is lacking proper infrastructure and suitable funding in areas outside of major cities.

It signifies the first Green Finance transaction that FMO provides to a bank in Africa. Given the pioneering role of Morocco in the area of Sustainable Finance initiatives and the leading role of BMCE Bank of Africa, we are optimistic about the positive demonstration effect of the transaction for Africa.
