Project Description

According to bank website, the mission of this Fund is to promote business practices contributing to the sustainable use of natural resources and biodiversity conservation in the LAC region, through the provision of dedicated financing and technical assistance. The main product of the Fund will be senior loans to local financial institutions, which in turn will on-lend to businesses (e.g. coffee farmers, cacao producers, tourism entrepreneurs, foresters, pineapple processing companies) that are certified by sustainability standards (like FSC, Rainforest Alliance, UTZ, Fair Trade) or that seek funding for specific green projects (such as drip irrigation, native crops production). Priority sectors will be agriculture, fishery, forestry and tourism. The Fund will initially focus on highly bio-diverse countries like Colombia, Ecuador, Peru and countries in Central America.
