## Project Description

According to the FMO, the project intends to show that the SMEs are creditworthy based on alternative online and offline data points, and to catalyze financing from other Financial Institutions on the Tribe platform. This will allow Tribe to build a portfolio and to catalyze other FIs. The platform will bring valuable support to SMEs who are currently un- or underserved. The focus sectors (gender, agribusiness and energy) resonate well with FMO's strategy as the involvement with Tribe provides FMO with the opportunity to build and expand our knowledge on fintech companies.
