Project Description

The project aims at the development and construction of the 14MW Kikagati hydro plant. FMO is the lead arranger for the approximately USD 48 mln senior debt tranche. FMO intends to provide 50% itself, and catalyse 50% from Emerging Africa Infrastructure Fund ("EAIF") managed by Investec. The project is expected to have a high development impact. It is the first cross border Independent Power Producer ("IPP") Project between Uganda and Tanzania, which will support the economic development of both countries, especially the underserved regions where the Project is located, and promote further integration of the East African Power Pool. The project is expected to generate around 113 GWh clean energy per year, serving the equivalent of 233,489 people and has an annual avoided GHG rate of 48,506tCO₂eq. Half of the electricity generated by the Project will be provided to Tanzania.
