Investment Type(s)	Loan
Investment Amount (USD)	\$ 14.83 million
Loan Amount (USD)	\$ 14.83 million
Project Cost (USD)	\$ 14.83 million

Project Description

FMO is providing a syndicated loan facility, which will be used by Sasfin to provide office equipment finance to South African SMEs. Supporting the SME segment will generate economic growth and have a positive impact on job creation. Furthermore, through this syndicate FMO is able to introduce one of its strategic partners to Sasfin.

Sasfin is a longstanding partner of FMO and continues to have a strong focus on the SME sector in South Africa. Through this loan, FMO hopes to contribute to the financial support provided to SMEs in South Africa as Sasfin is one of the few financial institutions in the country that has a strong focus on SMEs.

Investment Description

- Netherlands Development Finance Company (FMO)

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [Sasfin Bank](#) (Financial Intermediary) **is owned by** [Sasfin](#) (Parent Company)
- [Sasfin Bank](#) (Financial Intermediary) **is owned by** [The First Microfinancebank Afghanistan \(FMFB-A\)](#) (Parent Company)

Private Actor Relationship

There is often limited information publicly available about what development banks are funding through financial intermediaries. In 2021, the Early Warning System partnered with Oxfam International to incorporate information on high-risk projects being funded by financial intermediaries receiving funding from the International Finance Corporation (IFC) and the Dutch Development Bank (FMO).

The information listed below describes the relationship between the different private actors linked to high-risk sectors and subprojects of IFC and FMO's financial intermediary investments and/or the financial intermediary's parent companies made from 2017 through 2020, including any associated ring fences.

The database, however, does not explicitly or implicitly imply that IFC or FMO have material exposure to or are contractually or legally accountable to the sub-projects financed by their financial intermediaries or the financial intermediary's parent companies. It only shows a seemingly financial relationship among the different private actors, the financial intermediaries, and IFC or FMO.

Contact Information

No project contacts provided at the time of disclosure.

ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW) . A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>.
