Investment Type(s)	Loan
Investment Amount (USD)	\$ 34.31 million
Loan Amount (USD)	\$ 34.31 million
Project Cost (USD)	\$ 34.31 million

---

## Project Description

FMO's Financing will be 100% used for Renewable Energy/Energy efficiency leasing contracts (100% green label). Most of the financing will be used for small scale solar panels, which offers an interesting market potential for leasing companies.

Through this project FMO indirectly contributes to Turkey's renewable energy targets. With this use of funds FMO contributes to GHG avoidance via its contribution to the energy transition from traditional sources to renewable sources. At the same time FMO offers long-term financing in local currency (TRY), which meets the funding requirements of such activities. It prevents foreign currency mismatches on FMO's clients, or on end client level.

---

## Investment Description

- Netherlands Development Finance Company (FMO)

The client has been categorized as Category B in accordance with FMO's Sustainability Policy. The client is a leasing company and its activities are deemed to have potential limited adverse environmental and social risks and/or impacts. As part of the transaction, Finans Leasing will be required to apply the EDFI Exclusion List and Turkish E&S laws and regulations.

## Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [QNB Finansleasing](#) (Financial Intermediary) **is owned by** [QNB Group](#) (Parent Company)

---

## Private Actor Relationship

There is often limited information publicly available about what development banks are funding through financial intermediaries. In 2021, the Early Warning System partnered with Oxfam International to incorporate information on high-risk projects being funded by financial intermediaries receiving funding from the International Finance Corporation (IFC) and the Dutch Development Bank (FMO).

The information listed below describes the relationship between the different private actors linked to high-risk sectors and subprojects of IFC and FMO's financial intermediary investments and/or the financial intermediary's parent companies made from 2017 through 2020, including any associated ring fences.

The database, however, does not explicitly or implicitly imply that IFC or FMO have material exposure to or are contractually or legally accountable to the sub-projects financed by their financial intermediaries or the financial intermediary's parent companies. It only shows a seemingly financial relationship among the different private actors, the financial intermediaries, and IFC or FMO.

## Private Actors Description

QNB Finansleasing, a subsidiary of QNB Finansbank. QNB Finansleasing is one of the leading financial leasing companies in Turkey, with a growing market share, and a focus on providing access to finance to SME via its branch network throughout Turkey. Since the acquisition of Finansbank by Qatar National Bank (QNB), the shareholder structure improved, and the rating of QNB Finansbank has been upgraded. Due to its diversified branch network, QNB Finansbank and QNB Finansleasing have good access to SMEs.

## ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW) . A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
