Project Description

This transaction comprises the equivalent USD 1m (+1m limit) senior unsecured debt in LCY to Thitsar Ooyin to support the institution in its future loan growth plans. Thitsar Ooyin provides loans to clients, about 74% of women, in poor and remote areas of Myanmar, a low-income country. Proceeds of loans are for livestock, production, and services and the rest is for cultivation.

Through this investment, FMO is able to pursue its inclusive goals and geographically diversify its presence in Myanmar. FMO will be the second foreign lender in Thitsar Ooyin. It fits the MASSIF strategy, as the transaction is for the unbanked, in Myanmar, a low-income country and a fragile state, and it serves the agri/rural clients. Local currency funding to international MFIs in Myanmar remains scarce therefore this transaction is highly additional to Thitsar Ooyin.
