Investment Type(s)	Loan
Investment Amount (USD)	\$ 0.20 million
Loan Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

## Project Description

According to the bank document, "the project aims to promote green technologies for industrial wastewater treatment and identify innovative investment options including private sector investment. The aim is to improve the treatment of industrial wastewater and reduce the discharge of pollutants in the Ayeyarawady river basin – by far the most important river in the country.

The partnership with WWF-NL in this project will enable NLB FMO NL Business to create a pipeline of projects in Myanmar for potential Dutch industrial wastewater treatment exporters. NLB will be expected to set up the Greenlines facility (SME financing for green technology) of the FI department of FMO".

### Investment Description

- Netherlands Development Finance Company (FMO)

## ACCESS TO INFORMATION

As part of FMO's "ex-ante disclosure" (disclosure of transactions before contracting), you can send requests or questions for additional information to: [disclosure@fmo.nl](mailto:disclosure@fmo.nl)

## ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
