Project Description

FMO is investing into Societe de Production d'Energie Solaire de Ouagadougou S.A.S. ("SPESO" or "Nagreongo" or "the Project"), an SPV established under the laws of Burkina Faso with a total syndicated debt of EUR 21.8 million. The Sponsor is GreenYellow S.A.S. which is in turn owned by the Casino Guichard-Perrachon S.A., a retail conglomerate quoted on the Paris stock exchange. GreenYellow has a large portfolio of rooftop solar power plants with C&I clients in France and is an established IPP in Madagascar, Mauritius and S. America.

FMO's loan of EUR 7.2 million will catalyze EUR 8.2 million from ICCF both for a 14 and a half-year tenor and mobilise a further EUR 6.4 million from AEF which will have a longer 20-year tenor. This financing will allow for the development, construction, operation and maintenance of a 30MWp solar farm with a total project cost of EUR 27.3 million. This is a greenfield renewable energy development in a low-income sub-Saharan country. Nagreongo will provide clean, reliable electricity to a country that has one of the lowest electrification rates in West Africa at a lower price than current thermal power stations. FMO's tenor of up to 20 years is not available in the Burkina Faso market and allows the project to offer an attractive tariff to the Government of Burkina Faso.
