## Project Description

According to bank proivided information, Aerobotics (Pty) Ltd. (the "Company") is an Agri Tech company active in the Farm Management Software, Sensing & IOT space. The Company has developed an orchard monitoring, yield estimation and insurance reporting product that supports precision agriculture in the high value tree crops segment (e.g. citrus, berries, and nuts). Key components of the solution are field management, pest & disease control, yield estimation and irrigation management.

An equity investment is contemplated that will support the Company's operations, expansion, and technology development.

### ACCESS TO INFORMATION

As part of FMOÕs Òex-ante disclosureÓ (disclosure of transactions before contracting), you can send requests or questions for additional information to: disclosure@fmo.nl

### ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: https://www.fmo.nl/independent-complaints-mechanism
