Bank Risk Rating	U
Voting Date	2020-06-08
Borrower	d.light
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	$ 0.11 million
Project Cost (USD)	$ 0.11 million

Project Description

The aim of the project is to electrify 300 off-grid private clinics across rural Kenya. These off-grid clinics will gain access to electricity and their patients will gain access to higher levels of care enabled by this electricity access. Sales to these clinics will also provide much-needed revenue for the client that will allow them to reduce the risk of layoffs in these difficult times. The project will improve the quality of healthcare to an estimated 480,000 vulnerable citizens (an average 1600 people are covered per rural clinic as per World Resources Institute). d.light employees are secondary beneficiaries, as they would be assured job and income security thanks to the continuity of d.light operations.

Investment Description

- Netherlands Development Finance Company (FMO)

ACCESS TO INFORMATION

As part of FMOÕs Òex-ante disclosureÓ (disclosure of transactions before contracting), you can send requests or questions for additional information to: disclosure@fmo.nl

ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: https://www.fmo.nl/independent-complaints-mechanism
