Project Description

According to bank provided information, FMO will participate for USD 20 million in a USD 75 million debt facility (the "Facility") led by IFC. The funds will be used by the Co-Borrowers to prepay their raw materials, foodstuff commodities, predominantly wheat, raw sugar and powdered milk.

According to the United Nations, the condition in Yemen is close to a famine and almost half of the population is experiencing high levels of food insecurity. The facility will help the Co-Borrowers increase the imports of raw materials for the production of the most basic foodstuffs, i.e., flour, sugar and dairy in volumes that will materially improve the nutrition of the population.

Early Warning System Project Analysis

The FMO categorized the project risk as B+.

ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
