Project Description

AgriPlace B.V. is a cloud platform organization enabling effective compliance program management and communication between all actors in the supply chain. It aims at supporting smallholder farmers in emerging markets with certification requirements and compliance needed to sell their produce to European importers of organic products. At the same time, AgriPlace offers traders a solution for a transparent supply chain from field to retailer.

AgriPlace is one of the five winners of the Finture Solutions Challenge 2020. They won a repayable development contribution of EUR 125,000 and are using it to develop a remote auditing module for their platform and a network functionality to enable smallholder visibility.

ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
