## Project Description

FMO will take an unfunded risk participation in an uncommitted transactional working capital facility, made available and arranged by Banque Internationale de Commerce-BRED (Suisse) SA ([www.bic-bred.com](http://www.bic-bred.com)), for Sucafina. The company will utilize the funds to make prepayments to its operating companies and third party suppliers in origin countries (mainly East Africa and Colombia) for the purchase, storage, and transit of green coffee beans.

With this facility, Sucafina will be able to further expand its origination activities in Africa and Colombia and thereby provide direct support to smallholder farmers. Through the Farmer Hub initiative, the company wants to increase the number of smallholder farmers reached globally from ~170,000 to 350,000 over the next five years and assist them with growing speciality coffees, diversifying into other crops and access to banking services and markets. FMO is closely supporting the Farmer Hub initiative through its capacity development program.

### ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
