## Project Description

According to FMO documents:

Our client is the Global Private Capital Association (GPCA), a non-profit, independent membership organization representing private capital investors who manage assets across Asia, Latin America, Africa, Central & Eastern Europe and the Middle East.

FMO will support GPCA in the development of projects to improve fund management skills, encourage knowledge sharing, and initiate ecosystem initiatives for GPs within FMO's portfolio and in the wider PE space.

FMO is funding this project as it provides the opportunity to strengthen good practice and capacity development within its fund portfolio and facilitates ecosystem development opportunities within the greater PE space in emerging economies, with a focus on LDCs. This is aligned with MASSIF's aim to reach end-beneficiaries in emerging economies through financing local financial intermediaries and institutions that can contribute to their development.

## ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
