## Project Description

### WHO IS OUR PROSPECTIVE CLIENT?

Mediterrania Capital IV Mid-Cap L.P. (MC IV) is a generalist private equity fund with a target fund size of EUR 350m, currently being raised by Mediterrania Capital Partners (MCP). MC IV will target majority and significant minority investments in Mid-Cap corporates operating primarily in North-Africa, with some allocation to Francophone Sub-Saharan Africa.

### WHAT IS THE FUNDING OBJECTIVE?

Through providing growth capital to Mid-Cap corporates in its target region, MC IV aims to partner with management teams to support them with scaling existing operations and further institutionalization.

### WHY DO WE WANT TO FUND THIS PROJECT?

This investment fits FMO's strategy of deepening relationships with existing partners in the African private equity landscape, and contributes to improving access to finance for Mid-Cap corporates operating in North- and Sub-Saharan Africa.

### ENVIRONMENTAL AND SOCIAL RATIONALE

The E&S categorization of the Fund is A, based on the pipeline and on the Fund Manager's strategy. The Manager has established a functioning E&S management system with no material gaps with FMO's requirements. Proper ESG policies and procedures are in place and well embedded in the investment process (e.g., clear E&S due diligence process, external ESG audits against IFC Performance Standards on portfolio companies, clear roles and responsibilities in the team, KPI's on ESG and even a policy on ESG related to their exits). MCP has demonstrated a proven commitment towards achieving positive climate impact through developing a climate strategy and will support investees to better assess, manage and monitor climate risks.
