## Project Description

According to the Bank's website, Insitor Impact Asia Fund II ("IIAF II" or "the Fund") is a sector-agnostic Private Equity fund targeting investments in high-growth and scalable businesses active in Cambodia, India, and Pakistan. It is the second close-ended fund managed by Singapore-based Insitor Partners ("Insitor" or "the Manager"). The Fund will exclusively invest in companies providing solutions to low-income consumers/households along the main investment themes of better health, sustainable living, and economic growth.

The Fund has a first close in December 2021. MASSIF, a Dutch government fund managed by FMO, intends to commit USD 10mIn to the Fund, helping it reach a final size closer to its target and ensuring the viability of the investment strategy and sustainability of the manager. The Fund's investment strategy is well aligned with MASSIF's objective of supporting early-stage companies in frontier markets, and to support businesses that improve the livelihood and access to basic services for low-income households/consumers.
