Project Description

As stated by the FMO, the NASIRA Risk Sharing Facility (RSF) represents the next milestone to the well established partnership with Ameriabank. Through its controlled risk environment, the NASIRA RSF will bolster Ameriabank's endeavors to expand its MSME portfolio. The facility places particular emphasis on empowering Young and Women entrepreneurs by supporting their income generating business activities, thereby aligning with FMO's goal in Reducing Inequalities. The NASIRA transaction will support Ameriabank in achieving its strategic goal of growing its MSME customer base.

FMO will be sharing directly the risk of the loan portfolio of MSMEs with Ameriabank, while 50% of the limit will be geared towards Young and Women entrepreneurs, hence qualifying for a 50% RI Label.

As a result, the NASIRA RSF facility will incentivize Ameriabank to finance the underserved and marginalized communities in Armenia, thus supporting the country's economic development. Lastly, the transaction is additional as there are hardly any alternate products available in the market which offer similar portfolio protection as NASIRA does.

Early Warning System Project Analysis
