Project Description

According to the project disclosure page, FMO funding objective is to support EBF I which core focus is to promote business and consumption practices that contribute to biodiversity conservation, the sustainable use of resources, and to mitigate climate change and adapt to its impacts. This is predominantly done by offering debt products to local FIs which in turn on-lend to businesses that are either certified by sustainability standards or seek funding for specific green products. To a limited extent, the fund further provides debt to corporates with a strong impact mandate. The main sectors include agriculture, fishery, forestry and tourism.

FMO aims to expand its green portfolio by investing in biodiversity and the sustainable use of natural resources. This is in line with FMO's 2030 Strategy which aims to invest USD 10bln in SDG 13 by 2030.

Investment Description

- Netherlands Development Finance Company (FMO)

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [Eco Business Fund](#) (Financial Intermediary)
