### Private Actors Description

As stated by the FMO, the contracting party for this TA project is Africa REN Development ("DevCo"). DevCo is a developer of clean and sustainable infrastructures in West Africa and will typically cover all development costs until a project has reached financial close, at which point, Africa REN Energy ("AssetCo") may purchase the developed asset for construction and operation. AssetCo has the right (not the obligation) to purchase solar and other renewable assets developed by DevCo). Ultimate goal is to build a 250MW portfolio of renewable assets by 2026. AssetCo has been operating in the region since 2015 and it has developed and manages the i) 25 MW Senergy 2 solar power plant in Senegal, the ii) the WALO storage project and iii) Koden Solar, a 38MW solar power plant in Burkina Faso.

## ACCOUNTABILITY MECHANISM OF FMO

Communities who believe they will be negatively affected by a project funded by the Dutch Development Bank (FMO) may be able to file a complaint with the Independent Complaints Mechanism, which is the joint independent accountability mechanism of the Dutch Development Bank (FMO) and the German Investment Corporation (KfW). A complaint can be filed in writing, by email, post, or online. The complaint can be filed in English or any other language of the complainant. The Independent Complaints Mechanism is comprised of a three-member Independent Expert Panel and it can provide either problem-solving, compliance review or both, in either order. Additional information about this accountability mechanism, including a guide and template for filing a complaint, can be found at: <https://www.fmo.nl/independent-complaints-mechanism>
