Project Description

According to the Bank's website, Global Partnerships Impact First Growth Fund (IFGF) was launched as a strategic response to the COVID-19 pandemic, providing debt financing to microfinance institutions (MFIs) and social enterprises that deliver essential products and services to people living in poverty across low-income, fragile, and conflict-affected countries across Sub-Saharan Africa (SSA) and Latin America and the Caribbean (LAC).

FMO provides a USD 8 mln senior, unsecured loan to IFGF with a tenor of 6 years. The loan will be directed to micro-, small-, and medium-sized enterprises (MSMEs) serving women living in poverty, as well as to agricultural and rural activities in countries eligible under the MASSIF program.

FMO has invested in GP-managed debt funds since 2010. The Fund Manager has extensive experience managing social impact investments since 2005 and is considered a trusted partner. Through an investment in IFGF, FMO continues to support the client in generating social impact across LAC and SSA, reaching those at the bottom of the pyramid. Consequently, the loan qualifies for a 100% Reducing Inequalities (RI) label.
