Investment Amount (USD)	$ 36.00 million
Grant Amount (USD)	$ 36.00 million
Project Cost (USD)	$ 38.90 million

Project Description

According to GFC website, the project will build coastal resilience in three of Tuvalu's nine inhabited islands, managing coastal inundation risks. 2,780m of high-value vulnerable coastline will be protected, reducing the impact of increasingly intensive wave action on key infrastructure. The investments will build upon existing initiatives, using a range of measures for coastal protection including eco-system initiatives, beach nourishment, concrete and rock revetments, and sea walls. National capacity for resilient coastal management will also be developed, and the project will help to catalyse additional coastal adaptation finance from other donors.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating problem solving or conducting a compliance process. You can learn more about the Independent Redress Mechanism and how to file a complaint at https://irm.greenclimate.fund/.

You can access a video about the IRM (English) at: https://youtu.be/1LanbriVhfs.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: https://irm.greenclimate.fund/.
