Project Description

This project supports financial institutions in participating countries to fund over 20,000 scalable and replicable projects across industrial, commercial, residential, transport and agricultural sectors, with a capacity building component. Borrowers could include micro, small and medium-sized enterprises, special purpose companies, and households.

The project's stated aim is to create self-sustaining markets in the areas of energy efficiency, renewable energy and climate resilience.

Investment Description

- European Bank for Reconstruction and Development (EBRD)
- Green Climate Fund (GCF)
