Scaling Up Climate Resilient Water Management Practices for Vulnerable Communities in La Mojana

Scaling Up Climate Resilient Water Management Practices for Vulnerable Communities in La Mojana

Quick Facts

Countries	Colombia
Financial Institutions	Green Climate Fund (GCF)
Status	Approved
Bank Risk Rating	A
Voting Date	2017-10-01
Borrower	Government of Colombia
Sectors	Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	$ 38.50 million
Grant Amount (USD)	$ 38.50 million
Project Cost (USD)	$ 117.20 million

Project Description

The region of La Mojana, located in an inland deltaic plain with wetland systems, is one of the poorest and most climate vulnerable in Colombia. The region is affected by intense flooding and prolonged dry seasons which fundamentally affect water availability and the livelihoods of its inhabitants. While floods are part of the dynamic of the wetland, models predict both floods and droughts to become more frequent and intense, surpassing the capacity of infrastructure and ecosystems to provide a buffer.

Scaling up climate resilient integrated water resource management practices will tackle barriers derived from climate change through a number of activities. Systemized knowledge management of the impacts of climate change on water management will enable better planning. Water resource infrastructure and ecosystem restoration will be promoted. Early Warning Systems for climate resilience will be improved. Finally, rural livelihoods will be enhanced through climate resilient agro-ecosystems.

ACCESS TO INFORMATION

Requests for project information may be submitted using the IDP Request for Information by email to: disclosure@gcfund.org.

You can also submit an information request using this online form: https://www.greenclimate.fund/about/disclosure/form. Additionally, if information requested is denied, an appeal can be filed to the Information Appeals Panel: iap@gcfund.org. You can learn more about the Information Appeals Panel at: https://www.greenclimate.fund/about/disclosure/appeals.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating problem solving or conducting a compliance process. You can learn more about the Independent Redress Mechanism and how to file a complaint at https://irm.greenclimate.fund/.

You can access a video about the IRM (English) at: https://youtu.be/1LanbriVhfs.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: https://irm.greenclimate.fund/.
