Integrated physical adaptation and community resilience through an EDA pilot

Early Warning System

Integrated physical adaptation and community resilience through an EDA pilot

GCF-FP061

Quick Facts

Countries	Antigua and Barbuda, Dominica, Grenada
Financial Institutions	Green Climate Fund (GCF)
Status	Approved
Bank Risk Rating	B
Voting Date	2018-03-01
Borrower	Ministries with responsibility for environment in Antigua and Barbuda, Grenada, and Dominica
Sectors	Climate and Environment
Investment Type(s)	Grant
Investment Amount (USD)	$ 20.00 million
Grant Amount (USD)	$ 20.00 million
Project Cost (USD)	$ 38.50 million

Project Description

According to the submitted proposal to the Green Climate Fund, this project seeks to stengthen institutional capacities and increase the resilience of at least 5% of the population in the pilot countries using an Enhanced Direct Access (EDA) system. It will specifically address prevelant barriers to climate change adaptation; the barriers are: 1. adaptation that leaves no one behind, 2. financing for adaptation in public, private, and civil society sectors, and 3. high per capita losses and costs of climate recovery.

The outputs of the project are:

1. Enhanced capacity for climate adaptation planning, implementation, and monitoring and evalutation via direct access.
2. Governments implement concrete adapttion measures using ecosystem-based approaches where appropriate.
3. Community resilience to climate change impacts is enhanced through tangible adaptation benefits.
4. Privately owned physical assets of vulnerable populations are more resilient to climate variability and change through concessional microfinancing.

People Affected By This Project

Number of people directly affected by specific components of the project:

Revolving fund loan agreements Grant reports and grant agreements: 13,200 direct beneficiaries

Number of males and females benefiting from the adoption of diversified, climate – resilient livelihood options: 15,650 males & 15,650 females

Investment Description

- Green Climate Fund (GCF)

Government co-financing: US$6.0 million

Civil society organisations: US$1.5 million

Private sector (households, micro-, small, and medium enterprises): US$11.0 million

As of the time of writing, the project proposal is not clear about the exact sources of the US$18.5 million in co-financing which rely on the Green Climate Fund participating in the project.

ACCESS TO INFORMATION

Requests for project information may be submitted using the IDP Request for Information by email to: disclosure@gcfund.org.

You can also submit an information request using this online form: https://www.greenclimate.fund/about/disclosure/form. Additionally, if information requested is denied, an appeal can be filed to the Information Appeals Panel: iap@gcfund.org. You can learn more about the Information Appeals Panel at: https://www.greenclimate.fund/about/disclosure/appeals.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating problem solving or conducting a compliance process. You can learn more about the Independent Redress Mechanism and how to file a complaint at https://irm.greenclimate.fund/.

You can access a video about the IRM (English) at: https://youtu.be/1LanbriVhfs.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: https://irm.greenclimate.fund/.
