Project Description

According to website of Green Climate Fund, the key objective of the proposed project is to "support the Government of Bangladesh in strengthening the adaptive capacities of coastal communities, especially women, to cope with impacts of climate change-induced salinity on their livelihoods and water security".

The proposed project is expected to empower target communities, especially women, as ‘change-agents’ to plan, implement, and manage resilient livelihoods and drinking water solutions. The project will enable those communities to address climate change risks on livelihood and drinking water security to promote synergistic co-benefits. The fund will be invested in promoting a diversification from currently non-adaptive, freshwater-reliant livelihoods of small-scale farmers, fishers, and agro-labourers towards climate-resilient agricultural livelihoods.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating problem solving or conducting a compliance process. You can learn more about the Independent Redress Mechanism and how to file a complaint at https://irm.greenclimate.fund/.

You can access a video about the IRM (English) at: https://youtu.be/1LanbriVhfs.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: https://irm.greenclimate.fund/.
