Project Description

According to bank documents, the overall rationale of the project is to directly tend to climate variability and climate change impacts on the hydrological cycle through restoration actions, capacity building to strengthen the governance and technical capacities around these actions, and tailored use of climatic information to be applied to local actions. Further, with a lifespan of seven years, project activities will be implemented in three phases: first year for inception activities, years 2 to 7 for full implementation and years 6-7 implementing an exit strategy to include the development of knowledge products and sustainability arrangements, operation and maintenance plans, and measurement of project impacts at the outcome level.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating [problem solving or conducting a compliance process](#). You can learn more about the Independent Redress Mechanism and how to file a complaint at <https://irm.greenclimate.fund/>.

You can access a video about the IRM (English) at: <https://youtu.be/1LanbriVhfs>.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: <https://irm.greenclimate.fund/>.
