PURE Rural Mozambique Climate Project: Driving Mozambique's climate resilience through energy access and climate-smart Productive Use of Renewable Energy

Quick Facts

Countries	Mozambique
Financial Institutions	Green Climate Fund (GCF)
Status	Approved
Bank Risk Rating	B
Voting Date	2026-03-28
Borrower	Enabel (formerly Belgian Technical Cooperation - Cooperation Technique Belge)
Sectors	Energy
Investment Type(s)	Grant
Investment Amount (USD)	\$ 42.60 million
Grant Amount (USD)	\$ 42.60 million
Project Cost (USD)	\$ 47.90 million

Project Description

According to the GCF, this project aims to enhance climate resilience and reduce emissions in rural Mozambique by expanding access to decentralized renewable energy and climate-smart productive use solutions, while strengthening national institutional capacity to sustainably finance and manage off-grid energy investments.

Structured around four outcomes, the project will strengthen the institutional and technical capacities of Mozambique's national energy fund, Fundo de Energia (FUNAE); support the development of mini-grids through competitive private-sector concessions; reduce emissions through solar mini-grid installation and operation; and increase climate resilience and livelihood generation through climate-smart productive use of renewable energy solutions.

By combining competitive private-sector mini-grid concessions with results-based financing for productive uses, the project addresses affordability, demand, and investment risks that have constrained rural electrification in Mozambique. The project is expected to directly benefit 66,200 people, of whom 52 per cent are women, and indirectly reach a further 158,800 people, while positioning FUNAE as a sustainable national vehicle for off-grid energy and climate finance in the long term.

ACCESS TO INFORMATION

Requests for project information may be submitted using the IDP Request for Information by email to: disclosure@gcfund.org.

You can also submit an information request using this online form: <https://www.greenclimate.fund/about/disclosure/form>.

Additionally, if information requested is denied, an appeal can be filed to the Information Appeals Panel: iap@gcfund.org. You can learn more about the Information Appeals Panel at: <https://www.greenclimate.fund/about/disclosure/appeals>.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating [problem solving or conducting a compliance process](#). You can learn more about the Independent Redress Mechanism and how to file a complaint at <https://irm.greenclimate.fund/>.

You can access a video about the IRM (English) at: <https://youtu.be/1LanbriVhfs>.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: <https://irm.greenclimate.fund/>.
