## Project Description

According to the GCF, ADAPT Jamaica responds to these challenges by transforming agricultural production systems across six central parishes—Trelawny, Saint Ann, Saint Elizabeth, Clarendon, Saint Catherine, and Manchester. The initiative aims to strengthen climate resilience among smallholder farmers by promoting Climate-Resilient Agriculture (CRA) practices and reducing food loss and waste across agricultural value chains.

The project combines practical on-farm demonstrations, farmer training, and the scaling up of low-cost climate-resilient farming practices. It also strengthens Jamaica’s agrometeorological network to deliver timely climate information and early warning systems, enabling farmers to make better production decisions. In addition, the project supports policy reforms, public-private partnerships, and improved access to finance to encourage long-term investment in climate-resilient agriculture.

**ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND**

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating problem solving or conducting a compliance process. You can learn more about the Independent Redress Mechanism and how to file a complaint at https://irm.greenclimate.fund/.

You can access a video about the IRM (English) at: https://youtu.be/1LanbriVhfs.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: https://irm.greenclimate.fund/.
