Climate Resilient Water Sanitation and Hygiene (WASH) and Disaster Management services for vulnerable children in the Central African Republic (CRDM-CAR)

Climate Resilient Water Sanitation and Hygiene (WASH) and Disaster Management services for vulnerable children in the Central African Republic (CRDM-CAR)

Quick Facts

Countries	Central African Republic
Financial Institutions	Green Climate Fund (GCF)
Status	Approved
Bank Risk Rating	B
Voting Date	2026-07-02
Borrower	Government of Central African Republic
Sectors	Climate and Environment, Infrastructure, Law and Government, Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	$ 69.10 million

Project Description

According to bank provided information, the CRDM-CAR project will strengthen the climate resilience of vulnerable communities —in the most climate-exposed areas of the Central African Republic. The project will reduce flood- and drought-related disruptions to water, sanitation, and hygiene services and improve disaster risk management. This will be achieved through laying the groundwork for transformative systems change (e.g., policies, standards, hydromet and groundwater monitoring, early warning systems, strengthening of institutions and data infrastructure); and risk-informed investments in climate-resilient infrastructure such as solar-powered rural water systems, resilient sanitation, urban drainage upgrades, and resilient WASH services in schools and health facilities.
