Investment Type(s)	Grant
Investment Amount (USD)	\$ 42.10 million
Project Cost (USD)	\$ 55.90 million

Project Description

According to bank provided information, the project will strengthen the resilience of Togo's national health system and its communities through an integrated climate-health approach built on four reinforcing components: strengthen surveillance of climate-sensitive health outcomes; build an enabling environment for climate-resilient health governance; improve the resilience of health infrastructure, technologies, supply chains, and service delivery; and enhance community adaptation and engagement.
