Inclusive Green Financing for Climate Resilient and Low Emission
Smallholder Agriculture

Quick Facts

Countries	Niger
Financial Institutions	Green Climate Fund (GCF)
Status	Approved
Bank Risk Rating	U
Voting Date	2019-11-01
Borrower	Government
Sectors	Agriculture and Forestry, Climate and Environment
Investment Type(s)	Grant, Loan
Investment Amount (USD)	\$ 9.44 million
Loan Amount (USD)	\$ 6.61 million
Grant Amount (USD)	\$ 2.83 million
Project Cost (USD)	\$ 12.75 million

Project Description

Inclusive green financing for climate resilient and low emission smallholder agriculture is the first Green Climate Fund (GCF) lending project to be implemented at scale in Niger. Building on the International Fund for Agricultural Development's (IFAD) lessons learnt and its partners' experiences in the country, this project's main objective is to support the building and scaling up of the resilience and adaptive capacity of rural communities and farmers' organizations. These organizations include youth and women's organizations, cooperatives and MSMEs. The focus will be on building the resilience of their agricultural and water resource management practices to current and future climate risks in four critical agro-ecological zones: Zinder, Maradi, Dosso and Tahoua. It will further contribute to reducing greenhouse gas emissions from energy use within agricultural value chains through water mobilization, processing, packaging etc. and the promotion of renewable energy technologies (RETs). The project will achieve these objectives by removing key barriers to accessing financial and non-financial services that support farmers in adopting and implementing climate change adaptation and mitigation best practices and solutions. This GCF project will build upon synergies with the active IFAD portfolio in Niger to reinforce its goal of reduce the impact of climate change on the food security of smallholder farmers and pastoralists through inclusive green financing (particularly for women and youth) in Niger. The project will directly target 25,000 smallholder farmers and approximately 150,000 indirect beneficiaries already targeted by the new IFAD investment in Niger.

ACCESS TO INFORMATION

Requests for project information may be submitted using the IDP Request for Information by email to: disclosure@gcfund.org.

You can also submit an information request using this online form: <https://www.greenclimate.fund/about/disclosure/form>.

Additionally, if information requested is denied, an appeal can be filed to the Information Appeals Panel: iap@gcfund.org. You can learn more about the Information Appeals Panel at: <https://www.greenclimate.fund/about/disclosure/appeals>.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating [problem solving or conducting a compliance process](#). You can learn more about the Independent Redress Mechanism and how to file a complaint at <https://irm.greenclimate.fund/>.

You can access a video about the IRM (English) at: <https://youtu.be/1LanbriVhfs>.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: <https://irm.greenclimate.fund/>.
