Project Description

According to the GCF, the objective of the ECCCP-Drought project is to make the NWR region of Bangladesh less vulnerable to climate change-induced drought while promoting the sustainable use of the region’s scarce water resources. The project achieves this by improving local institutional and technical capacities for the improvement of water planning and governance. In addition to this, the project will provide much needed infrastructure maintenance and provide more water access point for drinking purposes to reduce the burden of women in the region.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating problem solving or conducting a compliance process. You can learn more about the Independent Redress Mechanism and how to file a complaint at https://irm.greenclimate.fund/.

You can access a video about the IRM (English) at: https://youtu.be/1LanbriVhfs.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: https://irm.greenclimate.fund/.
