Project Description

According to bank website, the project will enhance Sierra Leone's resilience to natural disasters by establishing an efficient Multi-Hazard Impact-based Forecasting and Early Warning and Early Action System, to train and better equip local climate agencies' ability to predict and plan for future extreme weather events based on robust climate information. An evidence-based approach will enable decision-makers to adapt better and more efficiently to changing climate patterns and rising sea levels. A transformational change of the country's approach to climate risk will enable developers to access specific impacts on various sectors and geographical locations to better protect the most at-risk communities in Sierra Leone.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating [problem solving or conducting a compliance process](#). You can learn more about the Independent Redress Mechanism and how to file a complaint at <https://irm.greenclimate.fund/>.

You can access a video about the IRM (English) at: <https://youtu.be/1LanbriVhfs>.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: <https://irm.greenclimate.fund/>.
