Project Description

This project is connected to a conditional credit line for investment projects (CCLIP) the objective of which is to enhance the quality of life of the population in metropolitan areas by improving urban services and infrastructure. The objective of this first individual operation is to improve public services and infrastructure in metropolitan areas that require cooperation between two or more territorial jurisdictions by: (i) fostering an understanding of the problems facing big cities and promoting agreements to prioritise actions that require coordination between municipal and provincial authorities of a metropolitan area; (ii) contributing to build the institutions necessary to deliver services and infrastructure in metropolitan areas that encompass two or more territorial jurisdictions; and (iii) financing investments in urban infrastructure and facilities to support such improvements.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
