### Project Description

The general objectives of the project are to: (i) help increase productivity through the provision of rail infrastructure, thereby improving the quality and capacity of the public transportation service in the northwestern corridor of the Buenos Aires Metropolitan Area (AMBA); (ii) help mitigate the effects of climate change; and (iii) help reduce social inequality by providing quality transportation services to vulnerable groups. The project's specific objective is to improve the quality of public transportation through the renovation and electrification of the passenger rail service of the General San Martín Railroad (FCSM) in the section between the Retiro and Pilar stations, which will reduce travel times, improve the reliability of service, and decrease greenhouse gas emissions.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
